# Background

To foster a safe and low-carbon environment, the Electrical and Mechanical Services Department (EMSD) of the Hong Kong Special Administrative Region Government has been promoting E&M safety and energy efficiency & conservation to our community through different channels. In this connection, EMSD is organizing a "Symposium on Electrical and Mechanical Safety & Energy Efficiency - Engineering a Safe and Low-carbon Environment" on 24 - 25 January 2011 addressing issues on electrical, gas, mechanical and railways safety as well as the efficient use of energy. Target audiences of this Symposium include local, mainland and overseas professionals from government departments, consulting firms, academics, trade associations, green groups and any other interested parties.

# The Programme Day 1 PM (24 January 2011)

#### **Welcome Address**

Ir Stephen Chan Hung-cheung, JP, Director of Electrical and Mechanical Services, HKSAR Government

#### Keynote Session

#### Impacts of Building Energy Code\*

Mr Rob MANNING, President, The Chartered Institution of Building Services Engineers

#### Power System Safety and Regulatory Strategy\*

Mr GUO Zhi, Director-General, South China Bureau, State Electricity Regulatory Commission of China

# Purposes of the Symposium

- Addresses concerned issues with key stakeholders and endeavors to strive towards sustainable growth, in connection with economic advancement and environmental conservation, through energy management and electrical, gas, mechanical and railways safety.
- Facilitates a multi-dimensional platform for policy makers, professional engineers, energy managers, business decision-makers, academics and internationally renowned experts to have the opportunity for in-depth knowledge sharing and information exchange on the subjects of electrical, gas, mechanical and railways safety and energy efficiency.
- Enhances understanding and cultivates cooperation among all the concerned parties through sharing ideas and views on the issues of electrical, gas, mechanical and railways safety and energy efficiency.

#### **Opening Address**

Mr Edward YAU, JP, Secretary for the Environment, HKSAR Government

# Managing the Human Contribution to Risk at Major Accident Hazard Installations

Mr Nick DICKETY, HM Specialist Inspector (Human Factors), Gas & Pipelines Unit, Hazardous Installations Directorate, Health & Safety Executive, Great Britain
