

節約能源由家居開始

Save Energy, Start at Home

節約能源就是節省金錢。消費者選購家居用品時，如電飯煲、抽濕機、電視機、住宅式即熱氣體熱水爐、電子鎮流器及慳電膽，產品應貼有「確認式」能源標籤，才是精明的選擇。

Save energy is to save money. When purchasing household appliances, such as electric rice-cookers, dehumidifiers, television sets, domestic gas instantaneous water heaters, electronic ballasts and compact fluorescent lamps, consumers should select products with "Recognition Type" energy label. It is a smart choice.
