

遞交定期檢驗升降機證明書(表格 11)

Delivery of Periodic Lift Examination Certificate (Form 11)

According to the record provided by the registered lift contractor of your building, the registered lift engineer had carried out periodic examination of the lift(s) of the building (annual examination) six weeks before. So far we have not received the periodic lift examination certificate (Form 11). The lift owner must carry out his duties as required under the Lifts and Escalators (Safety) Ordinance.

1. The owner of a lift shall, within 7 days of the receipt of Form 11, deliver to the Director of Electrical and Mechanical Services such Form 11 and the prescribed fee for registration. It is an offence in law if the lift owner fails to do so.
2. In case the lift owner had authorized the registered lift contractor to submit the associated periodic lift examination certificate (Form 11), you should urge the lift contractor to deliver to the Director of Electrical and Mechanical Services such Form 11 and the prescribed fee without further delay.
3. For any queries, please contact your registered lift contractor.
