Children should be accompanied by adults when using the lift.
When trapped in the lift, you should not panic or attempt to open the lift door yourself. Press the alarm bell button immediately. Keep calm and wait for rescue.

In case of fire, do not use the lift.
Smoking is prohibited in the lift.

Do not kick the lift door, strike the lift door with your hands or crash a cart or cargoes against the lift door.
To avoid accidents, do not force open the lift door.

Do not lean against the lift door or the door frames to avoid getting your fingers or any part of your body caught when the lift door opens.
Do not put your hand on the lift door to avoid getting your fingers caught when the lift door opens or closes.

When you go in or out of the lift, beware of the leveling of the lift with the floor landing to avoid tripping.
Do not force your way into the lift when it is fully loaded or when its overloading signal is sounding.

Do not interfere with the normal operation of the lift by inserting anything into the space between the lift door and the door frame for your personal convenience.
To avoid accidents, do not force open the emergency exit on the top of the lift car.

To avoid affecting the normal operation of the lift, do not climb on the handrails or play or jump inside the lift.
Do not affix stickers, make graffiti or cause damage to the lift or the lens of the CCTV.

To avoid affecting the operation of the lift, do not press lift buttons mischievously.
Hold the handrail tightly and do not carry things with both hands when riding on an escalator. Do not step on the yellow lines on the escalator step but stand firm between them.

To avoid causing any damage to lift buttons, do not press the buttons with any objects other than your fingers.
Lift your foot when stepping on and off the escalator to avoid losing your balance and getting the wing tip of your shoes trapped. Stand firm after stepping on the escalator to avoid falling over due to the loss of balance.

Children must be accompanied by adults when riding on the escalator.
Give a hand to the elderly and the needy who have to use the escalator. Slow-moving senior citizens without assistance from others are advised to use the lift.

Keep your feet away from the sides and do not touch the brush bristles of the skirt guard to avoid getting your feet caught in the gap between steps or the gap between the skirting panel and the step.
Passengers wearing sneakers, slippers or sandals should mind the gap between steps and the gap between the skirting panel and the step to avoid getting their shoes or toes caught.

Ladies wearing long dresses should be cautious of the risk of getting the edge of their dresses caught between steps or between the skirting panel and the step.
Do not stick the tip of your umbrella into the groove of the escalator step or into the gap between steps. Keep the tip of your umbrella off the escalator step.

Do not transport bulky objects such as cargoes, trolleys and bicycles on the escalator.
Passengers with a pram are advised not to use the escalator. If necessary, fold up the pram and take the baby in your arms.

Hold your pets firmly in your arms when riding on the escalator.
Do not press the emergency stop button which should only be used in an emergency.

Do not run or play on the escalator.
Do not play on or near the escalator.

Do not sit on the escalator.
Do not go in the opposite direction of the escalator.

Do not extend any part of your body out of the escalator to avoid hitting any obstacles nearby or falling over from the escalator.
Do not go beyond or vandalize the obstruction guards.

Do not climb on the handrail of the escalator.
