Change and Let Change

Mr. CHAN Fan, Frank JP

Director of Electrical and Mechanical Services, HKSAR Government
For 650,000 years, atmospheric carbon dioxide had never been above this line.

## Energy / Emissions Targets

<table>
<thead>
<tr>
<th>Energy / Emissions Target</th>
<th>Hong Kong</th>
<th>Singapore</th>
<th>United Kingdom</th>
<th>New York City</th>
</tr>
</thead>
<tbody>
<tr>
<td>Energy intensity reduced by 45%</td>
<td>Energy intensity reduced by 35%</td>
<td>Emissions reduced by 80%</td>
<td>Emissions reduced by 80%</td>
<td></td>
</tr>
<tr>
<td>Base Year</td>
<td>2005</td>
<td>2005</td>
<td>1990</td>
<td>2005</td>
</tr>
<tr>
<td>Target Year</td>
<td>2035</td>
<td>2030</td>
<td>2050</td>
<td>2050</td>
</tr>
</tbody>
</table>
Common Key Drivers

- More Stringent building energy codes
- Tighter energy labelling standards
- Incentive schemes for retrofitting
- Strengthening education and promotion
- Best practices for O&M
Thank You
