

Examples of Other Renewable Energy Projects by the Government

Year of Installation	Venue	Installed capacity
2000-2004	Ten remote automatic weather stations	wind/solar hybrid systems, each with a wind turbine of 140W to 300W
2005	WSD Tai Mei Tuk F.W. Tank	wind/solar hybrid system with a 400W wind turbine
2005	EMSD Headquarters	1 kW wind turbine
2007	EMSD Headquarters	1.5 kW vertical wind turbine

Note:

There are landfill gas installations in landfill sites. They are owned by the private operators and therefore not listed above. Biogas generated during the sewage treatment process is also utilized within the sewage treatment plants to supplement the process energy needs.
