Recognised Certification Authorities are independent organizations empowered under law or decree (e.g. notified bodies appointed by the Commission of the European Community), to certify that a low pressure flexible gas tubing is designed and produced in compliance with international or national safety standards and recognized as such by the Gas Authority.

認可核證機構指透過法例或法令獲正式授權，可以核證某一低壓氣體接駁軟喉的設計及生產符合國際或國家安全標準，並獲氣體安全監督認可的獨立組織（例如歐洲聯盟委員會所指定的備案組織）。
