

Outstanding Registered Electrical Worker Awards Scheme 2013

Objectives

To arouse safety awareness and enhance professionalism continuously among members of the electrical trade and to award registered electrical workers with outstanding performance in these two areas.

Format and Assessment

The selection will be conducted in two stages.

A written test will be held in **the first stage**. Registered electrical workers demonstrating better safety knowledge will be selected to enter the second stage. The first part is for electrical work safety and the second part is for technical knowledge. The 6 best performing participants will enter the second stage.

There will be two parts in **the second stage**. The first part is a trade test. Participants will have to carry out inspection and testing to an electrical installation to find out its defects. Members of the adjudication panel will assess the safety awareness and knowledge level of the participants during their inspection and testing work. The second part is an interview. The adjudication panel will ask the participants questions on their daily work. Winners will be selected based on the participants' professional knowledge and safety awareness.

Eligibility and Enrolment

The selection is only open to registered electrical workers in Hong Kong (irrespective of the grades of work registered). Interested participants should fill in the enrolment form and submit it to the Electricity Legislation Division, 7/F, Electrical and Mechanical Services Department Headquarters, 3 Kai Shing Street by post or by fax at 2895 4929 on or before **31 July 2013**.

Enrolment form can be obtained from the Customer Services Office at EMSD Headquarters or downloaded from the EMSD website:
