All Registered Lift Contractors

Dear Sirs,

Circular No. 15/2000
Installation and Maintenance of CCTV Systems in Lifts

This circular is issued to supplement our Circular No. 10/2000 dated 9 June 2000 concerning the above matter.

In a situation where a registered lift contractor ("RLC") intends to enter into a contract under which CCTV installation or maintenance works in lifts are required to be provided but the RLC does not have a licence under the Security and Guarding Services Ordinance (Cap. 460), in order to avoid any possible contravention of section 11(1) of the Security and Guarding Services Ordinance (Cap. 460), the RLC should inform the other contracting party that the said works are to be carried out by a licensed security company.

Yours faithfully,

(G.M.W. CHUI)

for Director of Electrical & Mechanical Services
