

EAC 2015 Vs EAC 2018 - Summary of Changes

Note: The following table gives a list of changes with key wordings shown. Please refer to EAC 2018 for the detailed requirements.

Clause No.	<u>EAC 2015</u>	<u>EAC 2018</u>
1) 7.4 - Identification of EMO	Specified in clause 7.4.1 to 7.4.3	Expanding EMO identification scope through the new clause 7.4.4 to 7.4.6 regarding the study of viable renewable energy system, energy recovery system, enhancement of automatic control and equipment replacement etc.
2) 7.5 - Cost Benefit Analysis of EMO	Specified in clause 7.5.1	New requirements are introduced in clause 7.5.2 to 7.5.7 specifying the scopes of study with consideration of energy price, metering information and details of energy measurement etc.
3) 7.6 - Recommendations	Specified in clause 7.6.1 to 7.6.3	Clause 7.6 has been expanded by revising existing statement and introducing new statements. It consists of clauses 7.6.1 to 7.6.5 addressing the robustness of measured data to facilitate the energy saving determination and the subsequent verification of the saving during the EMO implementation period.
