

## Request Form for

### Building Information Modelling Software Add-in Prototype for Building Energy Code Compliance Checking of Lighting Installation

I would like to request a copy of the captioned prototype and user manual for trial use. My particulars are as follow:

Name : \_\_\_\_\_  
Organization : \_\_\_\_\_  
Position : \_\_\_\_\_  
Telephone contact : \_\_\_\_\_  
Email contact : \_\_\_\_\_

The purpose of requesting the prototype is/are:

---

---

---

By submitting this request form, I confirmed that I had read the important notes and agreed the terms of use as stated below of this form.

#### Important Notes:

1. The prototype is a BIM add-in tool to assist the compliance verification of lighting installation for Building Energy Code (BEC) for study purpose.
2. The tool was developed base on BEC 2018 Edition only.
3. The tool was developed base on Autodesk Revit 2017, 2018, 2019, and 2020 versions only.
4. There are constraints for the tool and details should refer to the user manual.

#### Terms of Use:

1. The prototype tool is for reference only. The Electrical and Mechanical Services Department (EMSD) makes no warranty to the accuracy or reliability of results that may be obtained from the use of the tool
2. EMSD shall not accept any liability for loss or damage occurring as a consequence of reliance by user on whatever usage of this tool.
3. The intellectual property rights of the prototype tool and the corresponding user manual are owned by EMSD. The tool or user manual shall not be copied /transferred without prior consent from EMSD.
