To whom it may concern

Dear Sir/Madam,

**Release of Code of Practice for Hong Kong LPG Industry,
Module 7 (Issue 2)**

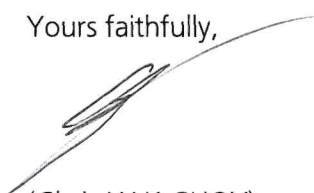

The Code of Practice for Hong Kong LPG Industry, Module 7 (COP M7), was promulgated by EMSD to formulate the recommended practices for the operating procedures for emergencies at LPG compounds and cylinder stores.

In order to capture the changes in trade development, increasing public expectations, and to incorporate the experiences of the stakeholders in the local LPG industry over the past years, the COP M7 has been updated and released in May 2025.

The COP M7 (Issue 2) is available at EMSD's website:

https://www.emsd.gov.hk/en/gas_safety/publications/codes_of_practice/index.html

Yours faithfully,

(Chris W K CHOY)

for Director of Electrical and Mechanical Services

(EMSD's website for COP
by Gas Standards Office)
