Objectives

- Provide the electrical trade with a platform to showcase their innovative safety concepts;
- Use innovation and technology to improve the work environment and enhance the awareness of electrical safety for trade members' reference;
- Further encourage the electrical trade to foster innovation and cultivate a safety culture, and thereby enhancing electrical safety.

Eligibility*

- The participant can participate individually or as a team. However, at least one participant or a team member must be a registered electrical worker;
- Participants must not have been convicted or disciplined under the Electricity Ordinance or its Subsidiary Legislation in the past three years.

*Participants who fail to meet the above eligibility requirements may have their enrolment cancelled.

Entry Requirement

- All entries shall produce a video with the theme of improving the electrical working environment and raising awareness of electrical safety;
- All entries shall be made with the use of any video recording equipment (including the mobile phone). The total duration of the video is about 1 minute;

- All entries shall be submitted in **MOV**, **MP4**, **WMV** or **AVI** format with resolution of not lower than 1280 x 720;
- All entries shall be original works;
- Please scan the QR code above to learn more details.

Assessment Criteria

- Conveyance of safety message (25%)
- Accuracy of the information (25%)
- Innovation (25%)
- Broad applicability (25%)

Enrolment

The video should be submitted before the Deadline on an **DVD** or **USB** storage device with the completed enrolment form to the Electricity Legislation Division of the Electrical and Mechanical Services Department (Address: 7/F, 3 Kai Shing Street, Kowloon). Please specify "Short Film Competition on Innovative Technology for Electrical Safety" on the envelope. Please scan the QR code above to learn more details and complete the enrolment form.
