

## Liquefied Petroleum Gas Cylinder Distributor Safety Performance Recognition Scheme

---

In order to further enhance the safety performance of LPG cylinder trade, the EMSD and the Registered Gas Supply Companies (RGSCs) jointly launched the LPG Cylinder Distributor Safety Performance Recognition Scheme in early 2016.

All the 184 distributors under the five registered gas supply companies supplying cylindered LPG in Hong Kong joined the Scheme. Among the participating distributors, 33 attained the gold rating, the highest level of safety performance, while 22 and 129 received silver and bronze ratings respectively.

The rating criteria were formulated by RGSCs and EMSD after several discussions. RGSCs then commissioned independent auditing companies to audit their distributors under the Scheme. The rating results were verified by the EMSD.

The rating criteria are as follows:-

Assessment Item	Marks
Authorized distributor	10
LPG cylinder delivery arrangement	3
Gas appliance inspection	20
Customer data record	11
Employee training record	6
Gas safety record	50
Total	100

The categories of rating are as follows:-

Rating	Eligible Marks
Gold	96 – 100
Silver	81 – 95
Bronze	≤ 80

Distributors will display the Scheme's logo and the rating certificate outside and inside their shops respectively for easy identification by the general public.

Please refer to the EMSD website for details of the rating results of the LPG cylinder distributors.
