

左揀右揀 揀個好燈膽

Make a Wise Choice in Selecting Light Bulbs

自願性能源效益標籤計劃 - LED燈 Voluntary Energy Efficiency Labelling Scheme - LED Lamps

ENERGY LABEL 能源標籤	
Brand 牌子 A	ABC 某某牌
Model 型號	HK1234
Luminous Efficacy (Lumen/W) 發光效率(流明/瓦)	110 B
Energy Efficiency Grade* 能源效益級別	1 C
EEL Registration Number 能源標籤登記號碼	LED 17-0001

* Among the five grades, Grade 1 is the most energy efficient. 在五個級別中，第一級為最省電。

* The data are provided according to the Hong Kong Energy Efficiency Labelling Scheme administered by the Electrical and Mechanical Services Department (EMSD), Government of the Hong Kong Special Administrative Region. The registration record can be found at the EMSD website at: www.emsd.gov.hk. 資料根據香港特別行政區政府機電工程署推行的香港能源效益標籤計劃的規定列出。有關註冊記錄可查閱網址 www.emsd.gov.hk

已註冊的牌子、型號
The registered Brand, Model

經認可實驗所測試所得的發光效率。電燈發光效率數值愈大表示該產品的能源效益愈高。
The Lamp Luminous Efficacy which has been recognized by the accredited laboratory. A higher number of the Lamp luminous efficacy of the model indicates that the product is more efficient.

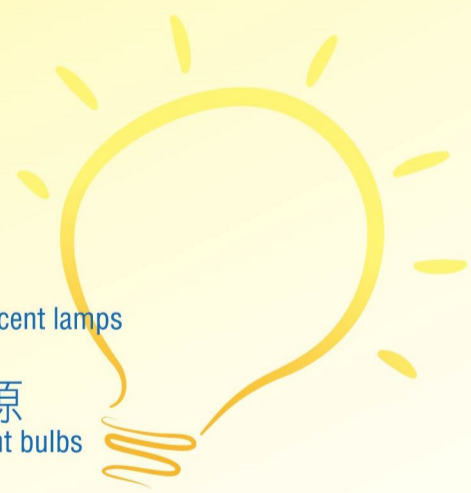

能源效益級別 (1至5級): 第1級的能源效益為最高 (即最節省用電) 而5級則最低。
Energy Efficient Grade (1 to 5). The Grade 1 having the best performance (i.e. the most saving of power consumption) while the Grade 5 products are least efficient.

LED 燈膽 - 更慳電、更長壽 LED Light Bulb - Long Life and Save Electricity

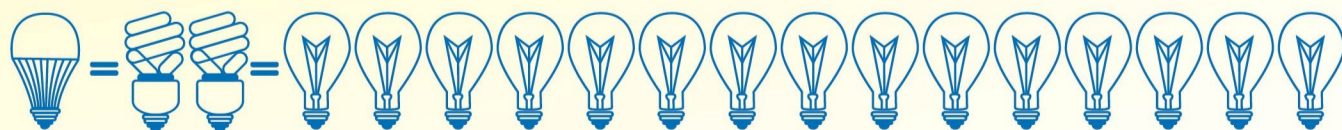

一級能源效益的LED燈膽
Grade 1 LED light bulbs

比慳電膽節省 **40%** 能源
Save **40%** energy comparing to compact fluorescent lamps

比鎢絲燈膽節省 **90%** 能源
Save **90%** energy comparing to incandescent light bulbs
