

保養 注意事項

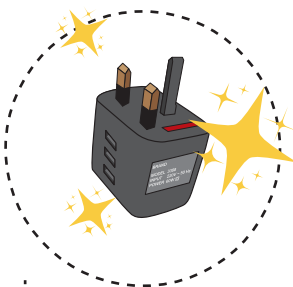

Points to note on maintenance

⚡ 小心擺放充電器／供電裝置，避免其電線受損。
Place the chargers / power supply units carefully to avoid damaging the cables.

⚡ 保持充電器／供電裝置清潔。
Keep the chargers / power supply units clean.

⚡ 切勿改裝或拆開充電器／供電裝置的外殼，或嘗試自行維修。
Do not alter or dismantle the enclosures of the chargers / power supply units, or attempt to repair them by oneself.

充電器及 供電裝置 的安全須知

Safety Tips for Chargers and Power Supply Units

選購 注意事項

Points to note on purchase

切勿購買無牌或沒有製造商標註及相關資料(例如額定電壓、頻率、輸入功率、製造商名稱及產品型號)的充電器／供電裝置(包括購買電氣產品時隨附的充電器／供電裝置)。

Do not buy unbranded chargers / power supply units (including chargers / power supply units that come with the electrical products) or those without manufacturer markings and relevant information (e.g. the rated voltage, frequency, power input, manufacturer's name and product model).

在信譽良好的店鋪或有關品牌的特約經銷商購買充電器／供電裝置。

Buy chargers / power supply units at reputable stores or authorised dealers of relevant brands.

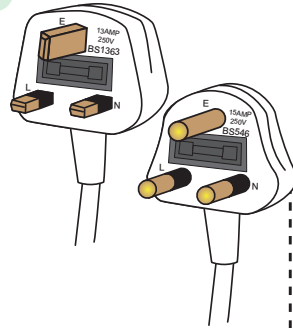

只應選購配有適合在香港使用的三腳插頭(即符合安全標準 BS1363 或 BS546 的插頭)的充電器／供電裝置。

Only buy chargers / power supply units with three-pin plugs suitable to be used in Hong Kong (i.e. plugs that comply with safety standard BS1363 or BS546).

選購附有符合安全規格證明書的充電器／供電裝置。如有疑問，可向供應商查詢。

Buy chargers / power supply units that bear a certificate of safety compliance. Contact the suppliers for enquiries.

選購功率合適的充電器／供電裝置，以配合所需輸出電流值。
Select chargers / power supply units with appropriate power rating to match with the required output current value.

使用 注意事項

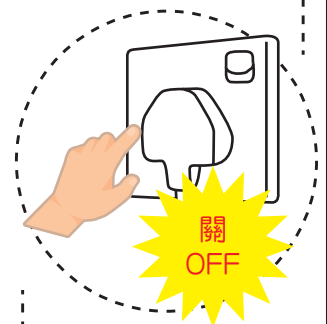

Points to note on use

遵照說明書內的指示使用及保養充電器／供電裝置。
Adhere to the instructions in the user manuals for use and maintenance of chargers / power supply units.

充電器／供電裝置在使用時應放在視線範圍內。不要把充電器／供電裝置長期接駁電源，以及使用後應拔掉插頭或關掉電源。

Place chargers / power supply units in use within sight. Do not connect them to a power supply for a prolonged period of time. Unplug them or disconnect the power supply after use.

應在通風的地方使用充電器／供電裝置，不宜在高温或強烈陽光照射下的環境或潮濕的地方(例如浴室、廚房等)使用。

Use chargers / power supply units in a well-ventilated place. Do not use them in environments with high temperature or strong sunlight, or where the humidity is high (e.g. bathroom, kitchen, etc.).

若發現充電器／供電裝置損壞、散發高温、有異常噪音／氣味／震動，應立即停用，並拔掉充電器／供電裝置的插頭。

If the chargers / power supply units are found to be damaged, too hot or giving off abnormal noise, smell or vibration, stop using them immediately and unplug them.
