# 充電器安全須知

## Safety Tips for Chargers

機電工程署  
**EMSD**

只應選購配有適合在香港使用的三腳插頭（即符合標準 BS1363 或 BS546 的插頭）的充電器。

Only buy chargers with three-pins suitable to be used in Hong Kong (i.e. plugs that comply with safety standard BS1363 or BS546).

確保充電器印有產品標記並選購功率合適的充電器，以配合所需輸出電流值。

Ensure chargers are provided with product marking and select chargers with appropriate power training to match with the required output current value.

SAFE BRAND

MODEL: 1234  
VOLTAGE: 220V~50V  
RATED INPUT: 0.5A

充電器在使用時應放在視線範圍內。不要把充電器長期接駁電源，以及使用後應拔掉插頭或關掉電源。

Place chargers in use within sight. Do not connect them to a power supply for a prolonged period of time. Unplug them or disconnected the power supply after use.

若發現充電器損壞、散發高溫、有異常噪音 / 氣味 / 震動，應立即停用，並拔掉充電器的插頭。

If the chargers are found to be damaged, too hot or giving off abnormal noise, smell or vibration, stop using them immediately and unplug them.

切勿改裝或拆開充電器的外殼，或嘗試自行維修。

Do not alter or dismantle the enclosures of the chargers, or attempt to repair them by oneself.
