

Ensure Safety of Your Electrical Installations

Conduct Periodic Inspection Every 5 Years

Owners of fixed electrical installations include:

The REC shall issue a periodic test certificate (WR2) after the PITC work.

An installation owner, who contravenes the above-mentioned requirements, commits an offence and is liable to a fine of \$10,000.

If the approved loading of a low voltage fixed electrical installation of a building/unit exceeds 100A, the owner shall employ a registered electrical contractor (REC) to inspect, test and certify the installation (PITC work) at least once every 5 years.

The owner shall submit the periodic test certificate to the EMSD for endorsement within 2 weeks.

Regular Inspections Mean A Safer Home
