

# Safety Tips for Induction Cookers

Switch off an induction cooker if its surface is cracked or there is any abnormal condition.

Ensure good ventilation for an induction cooker.

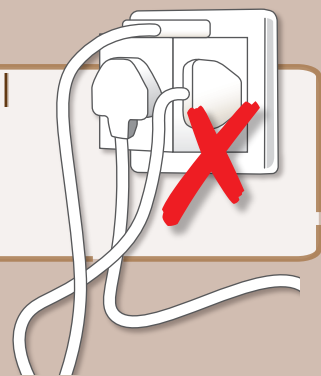

Switch off an induction cooker after use.  
Do not touch the induction cooker surface immediately.

Adhere to the user manual for use and maintenance of an induction cooker and arrange regular checks by an experienced technician.

Do not connect other electrical appliances to the same socket outlet supplying an induction cooker.

Do not place metallic objects such as knives, forks, spoons and lids on an induction cooker.
