

為何市民應使用獲批准分銷商提供的服務？

Why should members of the public make use of services provided by the approved distributors?

市民若向未獲批准的分銷商獲取服務，他們不但無法享有合乎水平的服務，亦可能會導致自己、家人、鄰居及其他人士不必要地面臨潛在的氣體危機。為安全理由，市民應辨別那些是獲有關註冊氣體供應公司批准的分銷商並選取它為你提供服務。

If members of the public make use of services from the non-approved distributors, not only they will fail to enjoy the quality services, but may also unduly expose themselves, their family members, neighbours and other persons to potential

石油氣分銷商是如何受規管？ How are the Liquefied Petroleum Gas (LPG) distributors regulated?

The Electrical and Mechanical Services Department (EMSD) is responsible for enforcing the Gas Safety Ordinance (Cap. 51). According to the Ordinance, the Liquefied Petroleum Gas (LPG) distributors (hereinafter called distributors) are monitored by the respective registered gas supply company; and the gas installation work shall be carried out by registered gas installer employed by the registered gas contractor. Moreover, the distributors should also comply with the "Code of Practice for Cylinder LPG Distributors in Hong Kong".
